Professional Summary

Java Developer with 3 years of hands-on experience in designing, developing, testing, and deploying enterprise-grade applications using Java, Spring Boot, and Microservices. Skilled in building RESTful APIs, integrating databases, and deploying scalable applications on containerized platforms such as Kubernetes and OpenShift. Strong background in Agile methodologies, writing unit tests (JUnit, Mockito), and applying microservices design patterns for high-availability systems.

Technical Skills

Languages: Java 8, SQL, JavaScript

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring REST, Spring Security (OAuth with Keycloak), Resilience4j, Hystrix

Databases: MySQL, MongoDB

Microservices & Cloud: RESTful APIs, Eureka Service Registry, PCF, Kubernetes, Helm

Build & Deployment Tools: Maven, Gradle, Jenkins, UrbanCode Deploy, Harness

Testing Frameworks: JUnit 5, Mockito

Version Control & Tools: Git (TortoiseGit), IntelliJ IDEA, JIRA, Splunk, SonarQube, Checkmarx, BlackDuck

Servers: Apache Tomcat

Methodologies: Agile, Waterfall

Professional Experience

Software Developer

Inductive Quotient Analytics India Pvt Ltd, Hyderabad | Aug 2022 – Present

Client: Aurobindo

Projects: Electronic Data Capture (EDC), Prabandhan

Responsibilities:

Designed and developed RESTful APIs using Spring Boot to support large-scale medical data storage and retrieval. Implemented asynchronous execution using Java 8 CompletableFutures to improve performance of database queries. Integrated Spring JDBC and Spring JPA with Hibernate for database operations. Applied Resilience4j for exception handling, retries, and fault-tolerant microservices.

Developed and executed JUnit test cases for repositories and controllers ensuring code reliability.

Deployed applications into Kubernetes and OpenShift environments for scalability and resilience.

Collaborated in an Agile team environment, participated in sprint planning, and supported CI/CD.

Key Achievements:

Improved API response times by optimizing asynchronous database operations. Successfully deployed and maintained applications in production with minimal downtime. Strengthened code quality by integrating static code analysis tools like SonarQube and Checkmarx.

Education

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering

RVR JC College of Engineering, Guntur

Personal Details

Name: Chimakurthy Sai Santhoshi
Date of Birth: 29-Oct-1996
Nationality: Indian
Marital Status: Married
